DOM

Yesterday, the funeral of former Rainbow Council member Number Two, Yanagi Shokon, took place at Ipe-po Ministry. Over 30 000 people are attended.

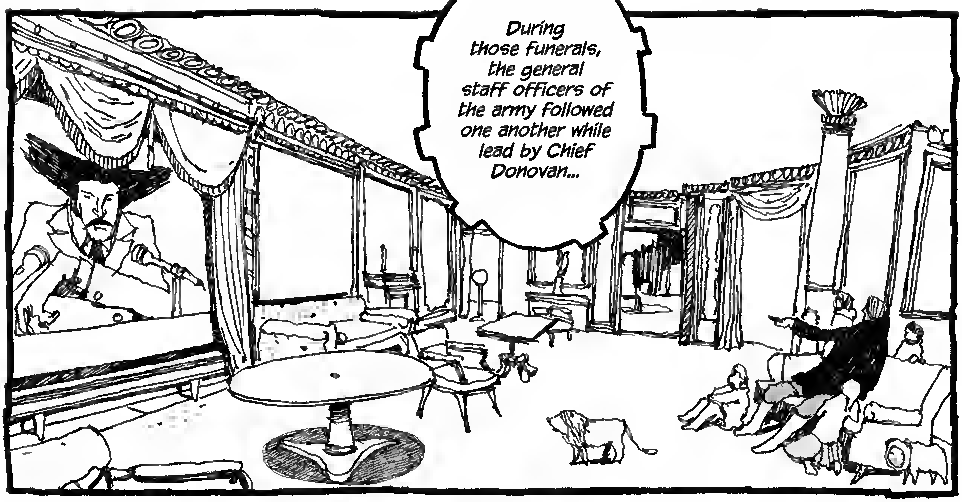
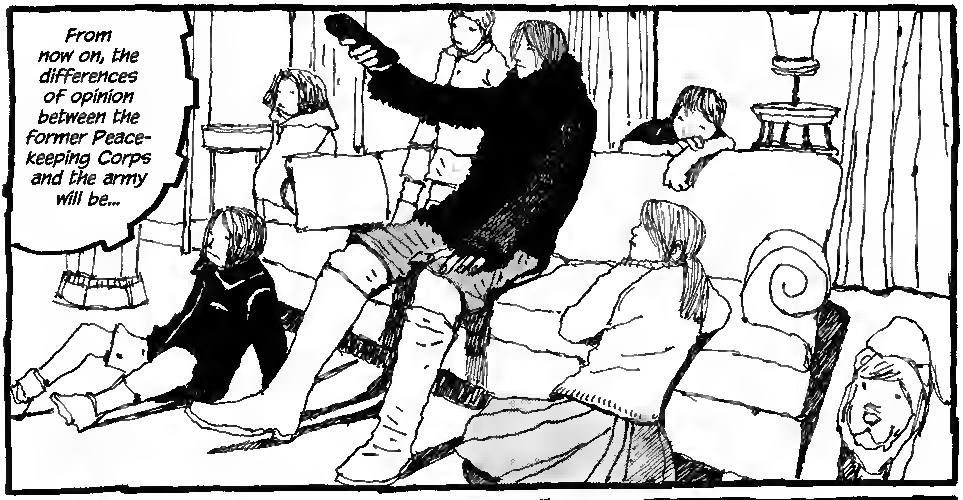
## Chapter 19

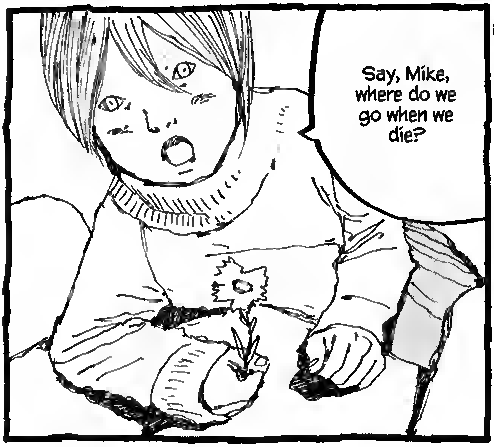
The former members of the Peace-keeping Corps tightened their bonds, showing no sign of weakness.
Nevertheless, facing the suicide of their sub-leader...
Mister Shokon's is sowing the seeds of doubt in people's minds.
The second case of suicide after General Viktor's, with whom disagreement remained...
...and declared in a sad tone: "we lost an invaluable treasure for our planet."
Their leader, Mike Ford, spoke in front of a crowd of journalists...
All eyes are now on Mister Ford, who a sizable portion of the population is supporting.



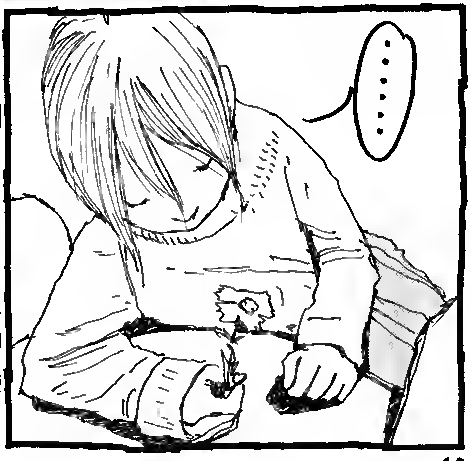
During those funerals, the general staff officers of the army followed one another while lead by Chief Donovan...



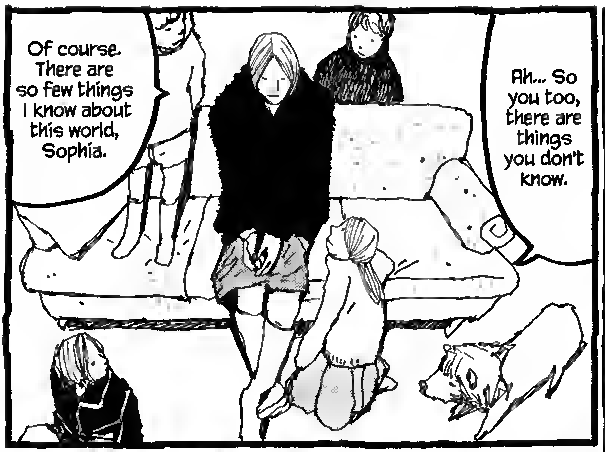
From now on, the differences of opinion between the former Peace-keeping Corps and the army will be...



Say, Mike, where do we go when we die?

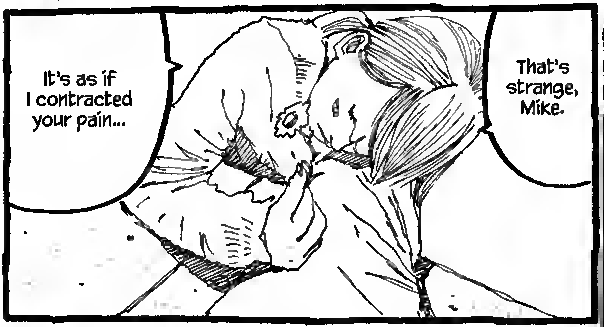


.....



Of course. There are so few things I know about this world, Sophia.
Ah... So you too, there are things you don't know.

!?
There are scholars who say: based on the gross weight of the universe and its necessary constancy, is proof af a existence of the soul...



It's as if I contracted your pain...
That's strange, Mike.

I'm so sad.

This is my first life, so I don't know...

Yes, let's talk about stars.
Sophia, let's talk about something cheerful.
In this great blue sky, there are millions of stars that are shining.
We can't see them right now because the sun's brightness is hiding them but...
Yes, like that.
It's true though, just close your eyes...
Heheheh, You don't believe me, do you?
And if we close our eyes and open our hearts, we can feel their presence.

I requested the civil think tank to estimate the damages on both sides in the case of an assault on Mike Ford's castle but...
because the strength of the Peacekeeping Corps are totally unknown, I was told that it was impossible to determine.
He's long-dead!!
Who's the originator of this project? Show yourself!
Some think that it might be some new religion of which Mike would be the founder.
It is high time we knew who they are exactly.
They don't have any fighting experience! Let's crush them, they're nothing more than mascots!

Especially for the children.
Ford is seen as a real hero for the people.
Whatever the damages on both sides. No, we should worry more about protests which will arise after we eliminate this Corps.
As you should know, my district has a special status and I don't intend to split the cost with ther districts.
HEY! Money is not the point here, you idiot!
Well, about the cost of maintaining our forces, which is evaluated at 6%...
This is trouble-some...

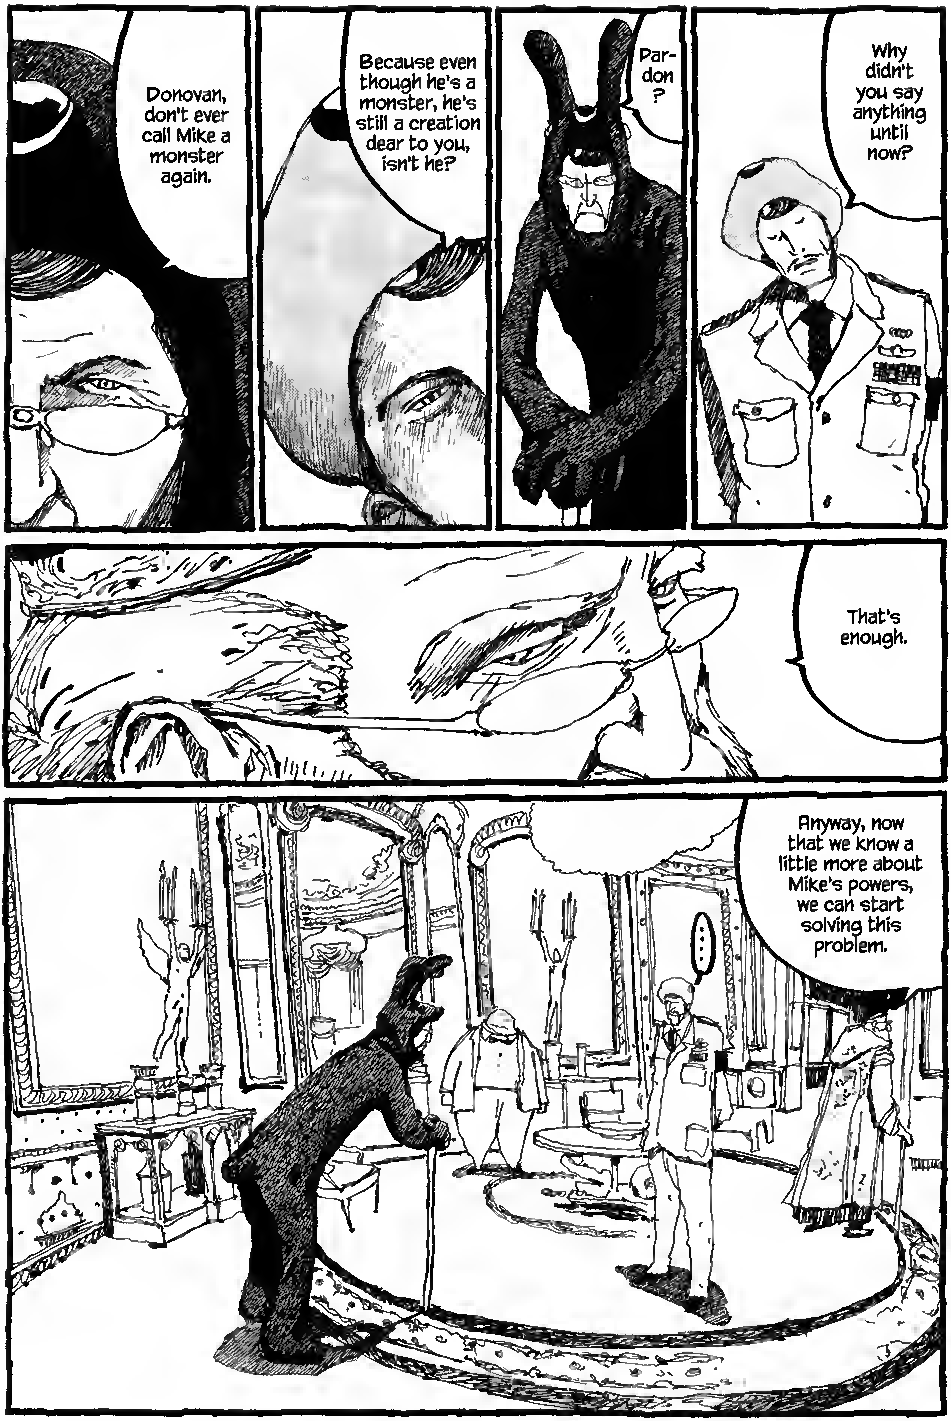
May I, Governor?

A sympathetic resonance?
I believe that this is indeed what you can call it...
It's not in the area of my expertise, but...
what you call telepathy?
So is this...
Yes.
The process of growth in many number of strawberries remains unexplained, but it's existence is unquestionable.
...
It feels like we're in a manga.
Then, it would explain the oneness of some men not yet disposed to harmony.

But with the arrival of Mike, I think there was an awakening.
At first, it was only a small power possessed by a few of them...
Do all the members of the Peace-keeping Corps have this power?
This is a story of insects.
What does it mean, actu-ally?
Then, that means... Err...
Bzzz
In other words, we can deduce that right now, no member in the Peace-keeping Corps is acting on their own will, according to their own emotions.
This is a imposed power of which no one can resist. More than a resonance, this is an assimilation.
and so is his anger...
Mike's sadness is becoming theirs.



Donovan, don't ever call Mike a monster again.
Because even though he's a monster, he's still a creation dear to you, isn't he?
Par-don ?
Why didn't you say anything until now?
That's enough.
Anyway, now that we know a little more about Mike's powers, we can start solving this problem.

LET'S KILL MIKE.
Idiot!
What?
Fool yourself!
And thanks to that, we'll get rid of all those agitated fools!

The Chief said that he wanted to talk. He agreed on the idea of maintaining the Peace-keeping Corps.
Let's say that this is a conciliation meeting.
May I consider this a peaceful debate?
